### SQUIRE ROGERS SUE

For \$2,000 Damages by Miss Nellie Brewer—Other Suits Possible.

As predicted in the Intelligencer a few days ago, the attorneys for Miss Nellie Brewer have instituted suit in the circuit court against Squire Rogers, and it will come up at the March term of court. The suit is entered against the squire and his bondsmen, Dr. C. F. Ulrich and Major W. J. W. Cowden, and \$2,000 damages for malicious prosecution is asked. The plaintiff was recently acquitted of an unlawful cohabitation charge, in which the other party was Henry Tigglebeck. A suit against C. A. Schaefer, the bondsman of Constable Henry Stoehr, may be entered in a few days. Squire Rogers last night said that a dozen lawyers had proffered their services in his behalf when the case comes up, and he takes the matter with considerable sangfroid.

### A Stroke of Paralysis.

Mrs. Scott, of the Sixth ward, wife of the well known machinist, was found lying in a semi-conscious state beside a cook stove, at her home yesterday. She is supposed to have laid there for nearly three hours. Mrs. Scott soon revived with the assistance of a physician.

### Killed Near Brilliant.

John Bendine, a fourteen-year-old boy living west of Brilliant, was killed to-day. His father was confined to the house and sent the boy with two woodchoppers to show trees on the farm that were to be cut down. While they were cutting one tree, a dead limb fell, striking the boy on the skull and crushing it.

### Runaway Accident.

While William T. Marsh, the milkman of Caldwell's Run, was driving through the alley between Fortieth and Forty-first streets, yesterday, a runaway team attached to a road wagon owned by a milkman named Smith, collided with his wagon, demolishing it and throwing Mr. Marsh out against a fence. He escaped with a few slight injuries. The team, belonging to Mr. Smith, was stopped at the Eighth ward school house, by running into an obstructing fence.

### In Clerk Robertson's Office.

### Death of Harry Winder.

Harry H. Winder, of Eoff street, South Side, died yesterday, from consumption. Though the sad event had been expected for some time, the announcement was a shock to his many friends throughout the city. ## LOW GRADE LINE

Is What the Baltimore & Ohio is to be Transformed Into.

### THE FISH-CAPTAIN ROUTE

Is Said to Have Been Decided Upon, Though Nothing Definite is Known Here on the Subject—A Maximum of Sixteen Feet to the Mile is Proposed—The New Wheeling Passenger Station Said to be "Coming."

Several days ago the Intelligencer called attention to the rumors in circulation to the effect that the Baltimore & Ohio railroad would construct a connecting link between Littleton, in Wetzel county, this state, and Barnesville, in Belmont county, O., a project that would take Wheeling off the company's through Chicago-Baltimore line. A telegram was sent to President Cowan, asking him whether there was any truth in the rumors. No reply was received, and this is taken by many in Wheeling to be a tacit acknowledgment of the reliability of the story.

Since then it is learned that the company is planning for a through Chicago line that will have nothing heavier than a sixteen foot grade. On the present line the Littleton and Barnesville hills are encountered, and both are much heavier grades than sixteen feet. This would seem to indicate that there is something in the Fish-Captain creek connecting link scheme.

It is also learned that the Baltimore & Ohio is moving to provide new terminals in several cities on its lines. This may mean that the long-promised new Wheeling passenger station is "coming."

In this connection the following special dispatch from New York will be read with interest: Baltimore & Ohio officials said to-day that money realized by the company from its recent \$8,800,000 four per cent. and \$2,500,000 3 1/2 per cent sale of bonds will not only provide for extensive physical improvements and additional equipment, but will furnish the medium of a new relation between the Baltimore & Ohio and the Pittsburgh & Western Railway Company, whose first mortgage four per cent. bonds to the par value of \$10,000,000 will be acquired with a part of the money raised by the Baltimore & Ohio.

Fully eighty per cent. of these Pittsburgh & Western bonds were deposited with J. P. Morgan & Co. under the agreements of December 14, 1898, supplemented by the later offer that depositing bond holders might elect to receive either a new security in exchange for their defaulted bonds, or par and accrued interest in cash. These bonds, having been bought by the Baltimore & Ohio, will be held while the Pittsburgh & Western plan of reorganization is being carried out, which will be done with the co-operation of the Baltimore & Ohio management, which owns three-fourths of the Pittsburgh & Western common stock. Eventually they will be either retired or exchanged for a Baltimore & Ohio bond. In the open market Pittsburgh & Western four per cents now sell at par.

The plans for permanent improvements call for the transformation of the Baltimore & Ohio Railway into a low grade road between Baltimore and Chicago, providing for a maximum grade of sixteen feet to the mile. A grade of eighteen feet coming east, except over special places in the mountains, will be aimed at in the new scheme. Terminal improvements and second track facilities, which are in many places sorely needed, will be further features of the reconstruction plan. The proceeds of the recent bond sale not used for the Pittsburgh & Western bond purchase will be devoted to such improvements.
